My experience at Legend High School has been eye-opening. I have gotten involved and I have broken out of my comfort zone. At my time at Legend, I have joined many activities, sports, and organizations that have made me who I am today. Legend High School has taught me the importance of time management and what it means to go above and beyond. One of the biggest flaws in Legend High School is that it is not culturally diverse. This makes it difficult to connect with people who may share similar interests. There is no variation in culture. However, in high school it's important to get a strong education. And Legend's teachers and staff do a very well job of providing that for all the students. Many of the teachers are passionate about what they teach and want to see the students succeed. When teachers are understanding and willing to help you, it makes a huge difference on a student's willingness to learn.

I moved to Parker, Colorado from Anchorage, Alaska at the beginning of my sophomore year, and Legend High School immediately made me feel right at home. The staff is phenomenal. My advisor helped me accomplish all of my goals while satisfying all of my desires to grant me the best high school experience as possible. The teachers all have unique characters that promote learning and fun in an everyday environment. There are a plethora of clubs, activities, and groups to be a part of, and the athletics program is organized and encouraging. I fell in love with the performing arts and visual arts programs as well as I participated the remaining three years of my high school career. Overall, Legend High School's family environment made me feel part of something great.

From the epic spirit weeks, the rumbling of the Coliseum's bleachers, to the the everlasting relationships that I have made with my classmates and teachers, Legend High School has provided me with the high school experience that every teenager deserves to live. Legend has led me to believe that families really can be created without having the same blood running through our veins. This family comes together to encourage one another's dreams make a difference in the community. As I walk out of the doors of Legend High School for the last time as a student on May 15th, I want to see the titan family continue to grow and the spirit and love spread all throughout Parker, Colorado.

My overall experience of Legend High School, has been very exceptional. The environment at this school has made me feel safe and comfortable because of the "family-like" qualities which they emphasize on a daily basis. There are several opportunities to become involved with the school, such as sporting events and dances, and everyone is welcomed and encouraged to go to these events in order to become more involved with the school. The education has overall been satisfying, however there are a few classes were I have struggled with the teaching techniques. The one thing that I would have to complain about is the lack of diversity. Walking into this school, the first thing noticed would be how the majority of students is Caucasian. Overall, I have had a great experience over the past four years.

I love my high school, Legend. Part of my is sad to be moving on! We are such a family there when it comes to student body wide events and I love coming to such a happy environment everyday. The staff is so friendly and your teachers become your friends. They make you want to come to class just to hang out with them! The times of the year that Legend really pulls together and is the best school to be in is when we have homecoming and wish week. For homecoming, we have all of our events after and during school all that week. Almost every student goes to every event and game that week and just spends time with each other and supports our school. When Wish Week rolls around in the winter, we choose a Make-A-Wish foundation child to sponsor that week and everything planned that week goes to raising money towards that child's wish. Overall, Legend is the best high school in the district - and maybe I'm biased - but I wouldn't want to get my education anywhere else!
