I went to Littleton High School for all 4 years of high school and I loved it! I did the IB program that was challenging but prepared me for the workload that awaited me once I arrived at college. I was highly involved in the extracurriculars offered not for the college applications but because I genuinely cared about Littleton and took pride in the fact that it was my school, which made me more than happy to represent the school. I did speech and debate, orchestra, Future Business Leaders of America, Key Club, and Student Council so there was never a dull moment. I will say that I do wish they had a better math department but it was through this that I taught me to teach myself which has been valuable in college.

I loved going here! The math department isn't very strong but, the performing arts department is outstanding! It's a very open welcoming community, with a supportive staff.

Overall, Littleton is a great school with a nice atmosphere. The building itself is fairly modern, allowing a lot more light to come in than you would typically see in older architecture, which is nice in the winter. Most of the teachers are excellent. They care about the students' well being and are knowledgeable about the subject areas they teach. The school is nice because it offers the IB program, as well as several AP courses. If you're looking for a purely AP experience, I would encourage you to attend a different school because Littleton's AP courses are very limited. However, going to Littleton is a great opportunity to obtain an IB diploma, which can cut back on the amount of time (and therefore money) that you would have to spend at college after graduation.

Littleton High School is known for its diverse student population. This kind of environment shows students how to communicate and deal with people of multiple backgrounds. Therefore, cliques are at a minimum and students are very accepting in comparison to other schools in the area. Littleton High School is known for its performing arts rather than its sports. The girl's soccer and basketball team do well, but that's about it. It's marching band and theater club is outstanding with award-winning performances many years in a row. When it comes to academics and college readiness, Littleton does its best. And there are definitely multiple students that work arduously to put in good grades. But Littleton has also consisted of multiple students from humble backgrounds that don't know what it means to work hard in school. Therefore, Littleton's state testing scores suffer.

I found my home in the music department at Littleton. Littleton allowed me to discover my passions and pursue my dreams. Unlike other high schools, Littleton allows you to do whatever you want to do, and clubs/departments work together to help students participate in everything they wish to. This supportive atmosphere allows for diversity as many students participate in music, sports, and take rigorous classes all at the same time.
