# Community Reviews for this School

Posted: 6/2/2018 by Alum

My experience at Niwot High School mostly had to do with self-growth and discovering more about who I was in a larger, more varied setting than what I was used to in middle school. Niwot was a large enough size that I was able to learn more about myself as a person, but not so large that I lost myself in the crowd, which was definitely beneficial. The academics at Niwot are top notch, although there does seem to be a perpetuated idea that IB students are inherently smarter or more hardworking than AP or traditional kids. Niwot athletes are also great examples of student athletes, excelling both on the field/court/track and in academics. I myself was an IB student athlete, and I feel that the faculty and staff were all really understanding of us. Overall, I feel that Niwot's IB program really prepared me for college!

Simply put, my experience at Niwot has been exceptional. The students are extremely diverse and respectful, the staff and teachers are tremendously loving and dedicated to the students. They truly stand for our values, safety, and wellbeing. I followed the AP route and can say my AP experience was enjoyable and great in preparation for the AP exams, I also have many friends who have followed the IB route and have spoken of similar positivity. While there has been talk of how divided the AP and IB programs are, upcoming students are now able to pick and choose to have both AP or IB courses in their schedules, lowering the separation of the two. There are many various clubs and it is fairly easy to start your own. I have never seen any gender, sexual preference, or race discrimination in the school. While the sports are lacking and school spirit is average, there is always a large amount of participation in school events. Overall, I have thoroughly enjoyed my Niwot experience.

I am a senior at Niwot High School, and have had an okay experience. While I have made amazing friends, and have met some incredible teachers, Niwot is a very average school. There is hardly any school spirit, bad athletics, and very divided between IB and traditional/AP students. Many members of the staff had made me feel that I am "not good enough" because I am not in IB. However, I will say that a majority of the teachers are very supportive, and all academics are great. I have never felt unsafe, or alone.

I have had a great experience at Niwot High School. I have always felt extremely welcome and appreciated by the teachers and my peers. I feel like the work I do is appreciated and I am provided with constructive criticism on how to improve my work. I am guided through new ways to think and several ways to challenge myself in order to be successful in college and in my life otherwise. Everyone at Niwot is, generally, very friendly and welcoming. We have 40+ clubs and everyone is welcome to all regardless of gender, race, religion, or ability. Clubs and extracurricular activities are promoted by students and posters that are hung all around the school. Everyone is invited and encouraged to try something new and everyone is welcomed when deciding to do so. Niwot High School promotes community involvement with our IB program and our high National Honors Society membership, I value this involvement very highly because I enjoy partaking in community service and helping every chance I get.

My experience in Niwot was mostly positive, I was able to expand myself and go along the academic journey with amazing people. The majority of Niwot are students with a very high gpa and this motivated me to do well in school so I wouldn't fall back among my friends. If I were to improve something about Niwot it would be the after school help. Niwot doesn't have a good afterschool help program and if they implemented this it would benefit their students greatly.
